COMPANY PROFILE

GUANGDONG XIONGSU TECHNOLOGY GROUP

Guangdong Xionsu Technology Group (also known as HOMSO) was established in 1996 and the headquarters is located in Foshan. Xionsu is specialized in R&D, manufacturing and sales of high-quality plastic pipes including PPR, HDPE, PVC pipes and fittings, related tools as well. Besides, we are making great efforts to develop new products to meet different requirements.

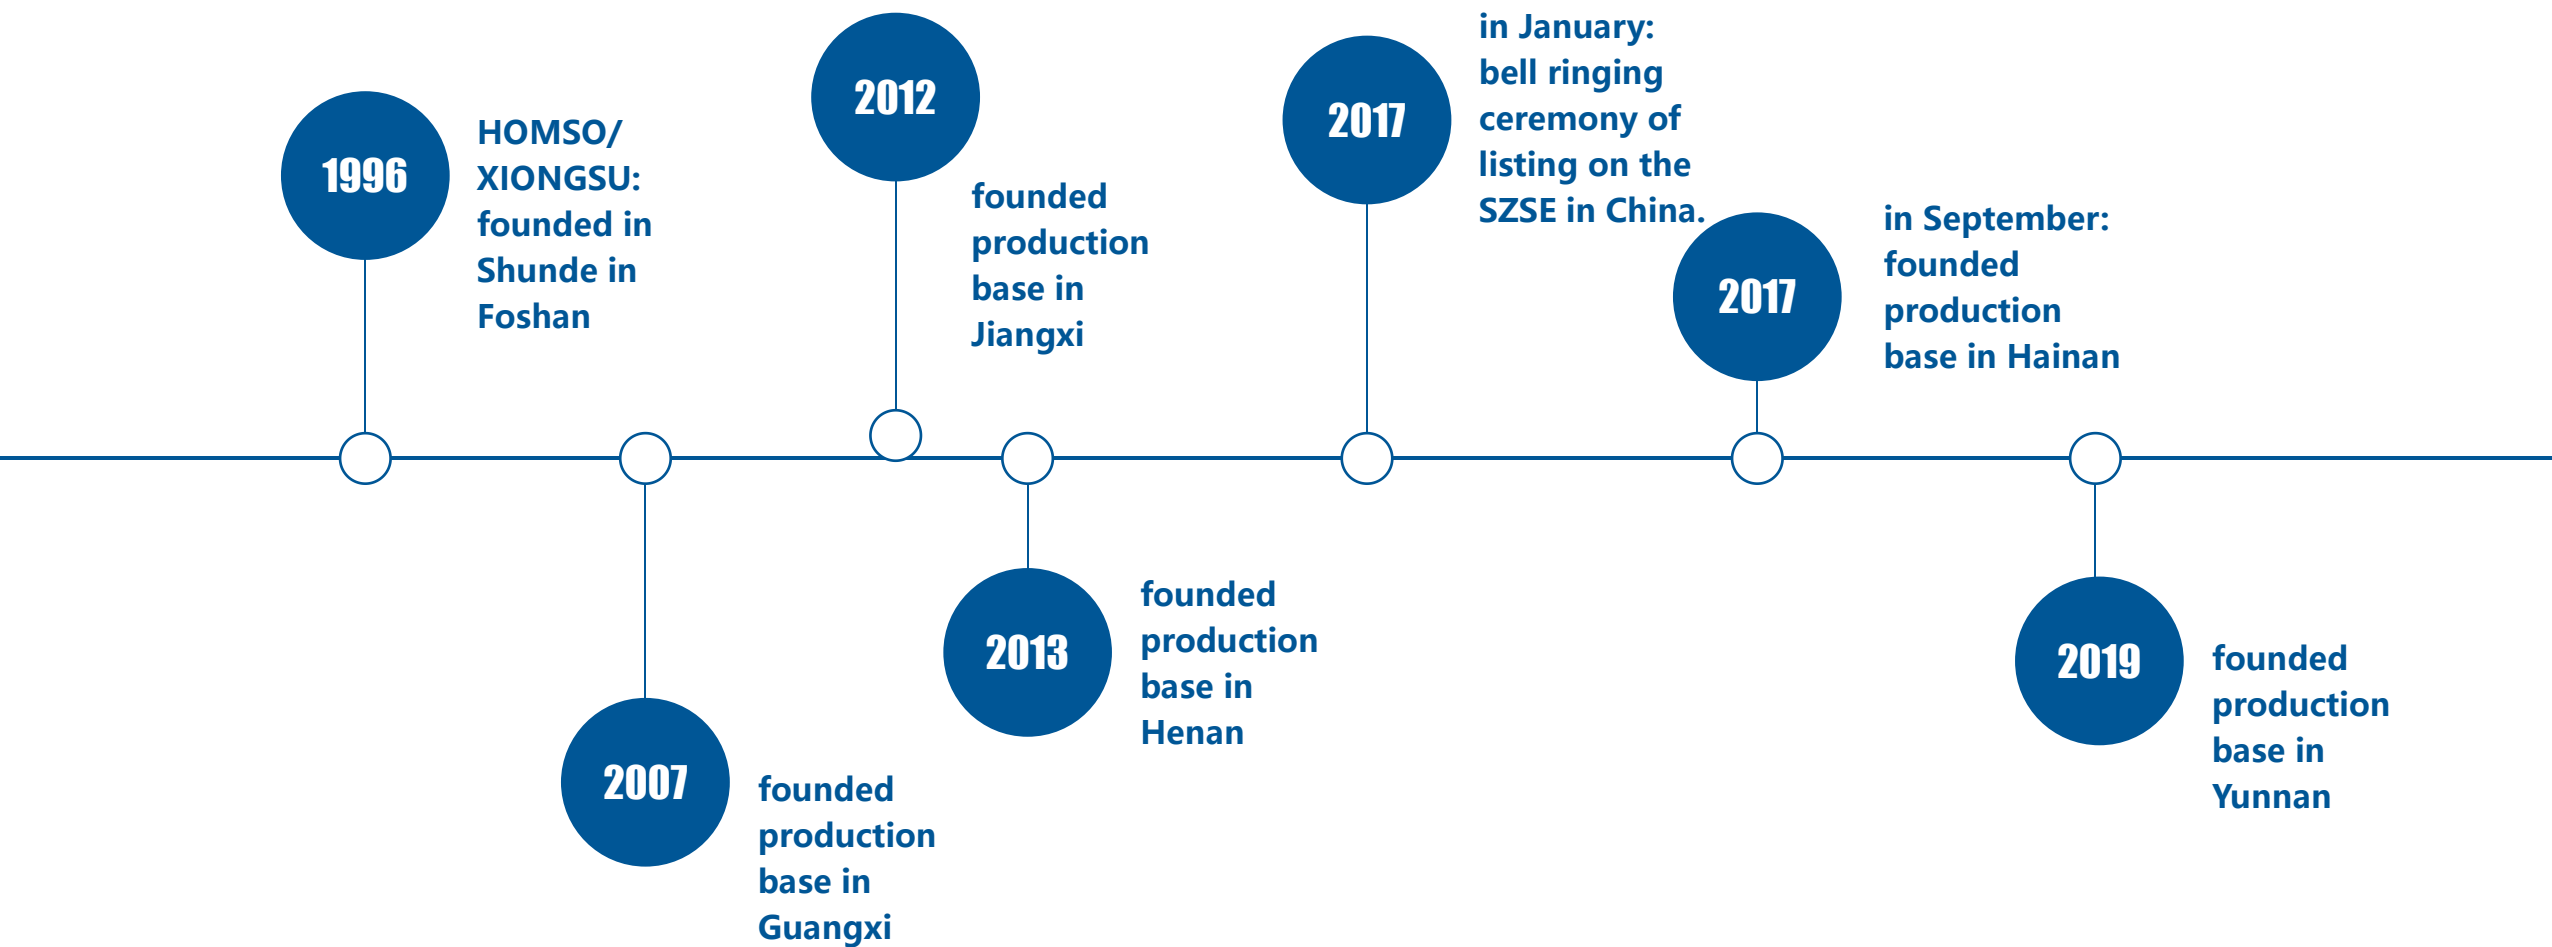

HOMSO headquarters covers an area of over 130 000 square meters and has more than 700 employees, and an annual production capacity of 300 000 tons in a factory. Moreover, Xionsu has 6 wholly-owned subsidiaries, five of which are production bases in different provinces.

HOMSO reached a sales turnover of USD279 100 000 in 2020, including export revenue, covering 146 countries all over the world. HOMSO strictly follow ISO9001 quality system and ISO14001 environment system to arrange manufacturing. We keep using high-class raw material, strict quality control in the workshop and laboratory with various professional test equipments, that ensures all product can meet the corresponding inspection standard. Adhering to the business principle of mutual benefits, we have had a reliable reputation among our customers because of our professional services, quality products and competitive prices.

PART 02

Product Introduction

PVC-U Drainage Pipe

Features:

Size: 32mm-630mm
Pressure: zero-high
Water noise: low-zero
Impact resistance: high

Advantages

► High Flow Capacity

The smooth interior walls and low friction of PVC-U drainage pipe result in low flow resistance and high volume.

► Corrosion Resistance

PVC-U drainage pipe is non-conductors of electricity and unaffected by electrochemical reactions caused by acids, bases, and salts that cause corrosion in metals.

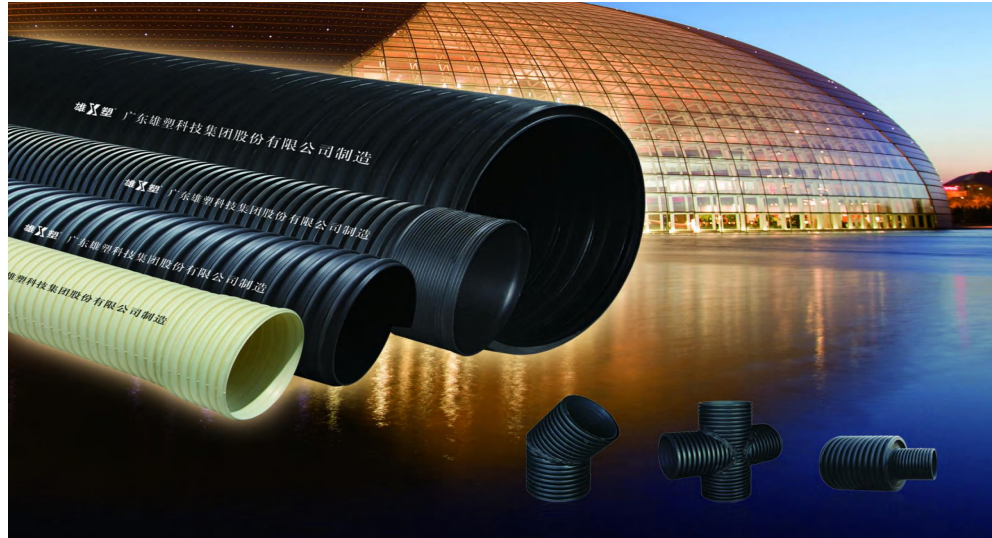

► Low Installation Costs

PVC-U drainage pipe is lightweight and is installed with solvent cement and gasketed joint. Ease of installation reduces the installation costs

► Environmental-friendly

PVC-U drainage pipe can be recycled.

Double Wall Corrugated Pipes and Fittings

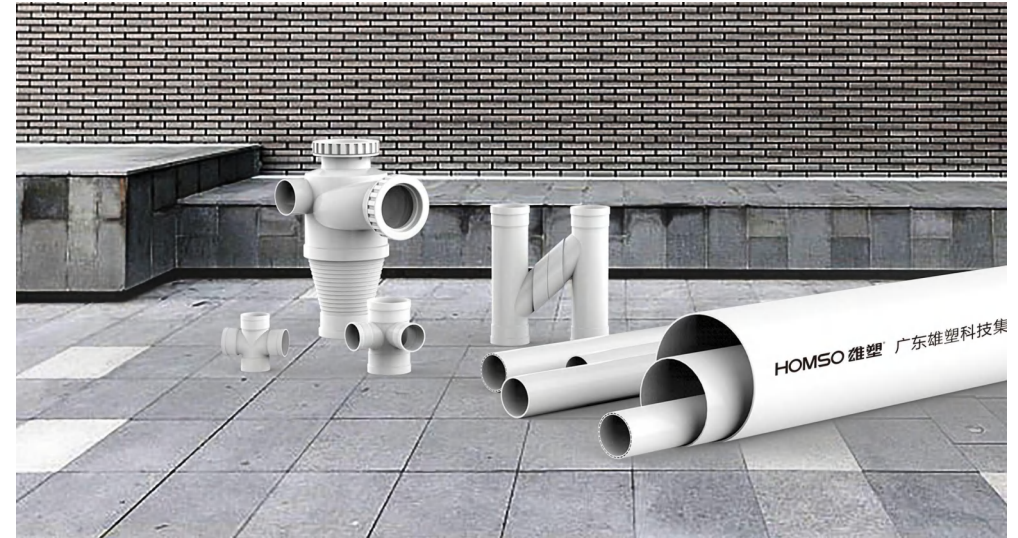

Ring Stiffness: 4KN/m²-8KN/m²

Diameter: 200mm-2000mm

Materials: PVC/ HDPE

Features: high flow; strong compact resistance; flexible;

Anti-corrosion; buired

PVC-U Sworage Water Pipes and Fittings

Working Pressure: 0-2.0Mpa

Diameter: 20mm-630mm

Materials: PVC

Features: many types of fittings; full specifications of pipes
anf fittings; impact-resistance; underground or above
ground; UV-resistance

PPR Pipes and Fittings

Green Series

Working Pressure: PN16-
PN25

Size: 20mm-160mm

Feature: Anti-UV, Anti-oxidization

White Series

Working Pressure: PN16-
PN25

Size: 20mm-160mm

Feature: 2 layers, anti-bacteria, anti-UV

Purple Series

Working Pressure: PN16-
PN25

Size: 20mm-160mm

Feature: Porcelain core, anti-bacteria, anti-UV

Grey Series

Working Pressure: PN16-
PN25

Size: 20mm-630mm

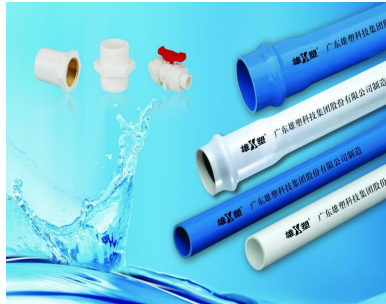

Feature: new innovation, impact-resistance, full specification
